

Oral Health Clinic

Mike Petryk School of Dentistry | University of Alberta

Dear Parent/Guardian,

The Mike Petryk School of Dentistry, in collaboration with the AHS Community Oral Health Program, is proud to offer the School Visit Program. Parents/legal guardians who are not able to have their child see a dentist regularly, may want to consider having their child participate in the School Visit Program.

Dental treatment will be provided at our Oral Health Clinic by dentistry, dental hygiene and dental assisting students, who are supervised by licensed dentists, dental hygienists and dental assistants. For children who have dental insurance coverage, the insurance company will be billed for the cost of treatment, and there will be no extra cost billed to the parent/legal guardian. Children without other dental insurance coverage may be eligible for dental insurance benefits through the [Canadian Dental Care Plan \(CDCP\)](#). Children who do not have dental insurance coverage, or do not qualify for dental insurance benefits through CDCP, will be provided with basic dental treatment free of charge.

**We accept the
Canadian Dental
Care Plan.**

Find more information, visit
Canada.ca/dental

Parents/legal guardians who are interested in having dental treatment for their child through the School Visit Program must:

- complete the School Visit Program Registration Form ([click on this LINK](#)) and submit it by **NO LATER THAN OCTOBER 9, 2026**.
- complete Medical and Dental History Forms for each child through our electronic portal by **NO LATER THAN OCTOBER 14, 2026** (invitation to portal will be sent through email).
- attend ***Smile & Sign*** together with their child at St. Pius School on **October 15th, 2026 anytime between 2:00pm-6:00pm in the Gymnasium**. ***Smile & Sign*** includes:
 - dentists/dental students having a quick 30-second look into the child's mouth to assess the child's dental needs.
 - parents/legal guardians reviewing and signing consent forms for each child's ***First Visit*** to the Oral Health Clinic at the Mike Petryk School of Dentistry ([click on this LINK](#) to see a video of what the School Visit Program is all about).

If a child is currently receiving dental treatment with their regular dentist, please have the child continue to see their regular dentist for ongoing care.

Please note that not all children will be eligible for the School Visit program as some may have dental needs that are outside the range of what can effectively be managed in our learning environment.

Lastly, we have partnered with Dogs With Wings (DWW) Assistance Dog Society, a non-profit organization that trains service dogs, facility dogs, and companion dogs. Dog trainers will occasionally be on-site at our Oral Health Clinic with their service dogs in training ([click on this LINK](#) for more details). Parents/guardians are requested to inform our staff if they would prefer that their child not interact with the DWW service dogs in training.

Please contact the Treatment Coordinator, Comprehensive Care for Children & Adolescents at 780-407-5567 or dent.peds@ualberta.ca with any questions or concerns.

Thank you for your interest in the School Visit Program!
